ABOUT ME

To work as a Software Engineer applying my knowledge in the field of testing, designing, and maintenance to cater to the specific needs of the people. I wish to work in a team of motivated individuals who wish to work towards the advancement of the company and its goals.

EDUCATION

- 2019-2021 | **Jamal Mohamed College, Trichy**
Completed my Master degree in zoology with an aggregate of 85% of marks.
- 2016-2019 | **Jamal Mohamed College, Trichy**
Completed my Bachelor degree in zoology with an aggregate of 77% of marks.
- 2014-2016 | **Govt.HR.Sec.School, Arasunilaipalayam.**
Completed my Higher Secondary Education with an aggregate of 60% of marks.

WORK EXPERIENCE

- Feb 2023- Present | **Full Stack Developer**
Fabevy Software Services pvt Ltd, Tenkasi.
- Sep 2022- Dec 2022 | **Front-End Developer - Internship**
Quantzi Infotech, Madipakkam, Chennai.

PROJECTS

- GreenFeet - UK (CO2 - Emission)** <https://greenfeet.net/>
My current project involves backend development in Node.js, incorporating various functionalities such as user authentication using JWT, integration of a payment gateway, and calculations for CO2 emissions including CH4 and N2O. Additionally, the system is designed to send emails and automate subscription renewals.
- Employees Workplace** <https://workplace.fabevy.com>
I completed a project as a backend developer in PHP focuses on implementing authentication using JWT, developing APIs for features like timesheet management, attendance tracking, and generating course certificates.
- Workbench** <https://wor-frontend.vercel.app/employee>
My current full stack project involves React.js for the frontend with React Sidebar Pro, Material-UI, Redux, and React Router DOM. The backend utilizes Node.js with Hapi.js server, implementing JWT token authentication, email sending, and ensuring smooth communication between frontend and backend.
